About Me

An enthusiastic and detail-oriented Junior Frontend Developer with a passion for creating intuitive and visually appealing web experiences. Proficient in HTML, CSS, and JavaScript with a strong willingness to learn and adapt to new technologies. Eager to contribute my skills and grow within a collaborative team environment.

Experiences

• [Internship Program] (Money Changer Application) May 2023 - October 2023

During my internship, I actively contributed to the development of a dynamic Money Changer application, gaining hands-on experience in frontend technologies and application design. Collaborating with the team, I played a pivotal role in implementing intuitive user interfaces, integrating real-time currency exchange rate APIs, and ensuring robust security measures, thus amplifying my understanding of web development best practices and user-centric design principles.

• Oniland Ecommerce

Engaged as a Frontend Developer in an eCommerce project, I leveraged my proficiency in HTML, CSS, and JavaScript to contribute to the development of an intuitive and user-friendly online platform. This experience involved implementing responsive design principles, optimizing the user interface using CSS for a seamless shopping experience, and incorporating JavaScript for interactive elements and enhanced user engagement. Collaborating closely with the team, I gained valuable insights into the intricacies of eCommerce development, further solidifying my skills in frontend technologies and web development practices.
