 Yangon, Myanmar

## Education

### Diploma in Web Development

Nov 2022-Sep 2023

KMD Institute

## Experience

### Frontend Developer (Internship)

May 2023-Oct 2023

*Money Changer Application*

During my internship, I actively contributed to the development of a dynamic Money Changer application, gaining hands-on experience in frontend technologies and application design. Collaborating with the team, I played a pivotal role in implementing intuitive user interfaces, integrating real-time currency exchange rate APIs, and ensuring robust security measures, thus amplifying my understanding of web development best practices and user-centric design principles.

### Oniland Ecommerce

Apr 2022-Sep 2022

*Kopwar, Myanmar*

Engaged as a Frontend Developer in an eCommerce project, I leveraged my proficiency in HTML, CSS, and JavaScript to contribute to the development of an intuitive and user-friendly online platform. This experience involved implementing responsive design principles, optimising the user interface using CSS for a seamless shopping experience, and incorporating JavaScript for interactive elements and enhanced user engagement. Collaborating closely with the team, I gained valuable insights into the intricacies of eCommerce development, further solidifying my skills in frontend technologies and web development practices.
